

TOUGH BUT EVEN LIGHTER

# NEW: DAMP PROOF HOUSING

SEPTEMBER 2023

# AS GOOD AS ALWAYS, BETTER THAN EVER

DAMP PROOF HOUSING is an IP65-protected, IK08-rated, economical and – thanks to the replaceable T8 LED tube – sustainable lighting solution. The new generation of this robust luminaire housing is now even better: easier to handle, faster to install and even more versatile in use.

#### DAMP PROOF HOUSING GEN 3

#### **WHAT'S NEW?**

- ▶ Reduced number of stainless steel fasteners
- ▶ Significantly lower weight
- ▶ Diffusor cover fixed to one side of the housing
- ▶ Tool-free installation via quick-connect terminals
- ▶ New DALI and emergency lighting versions
- ▶ Integrated fuse

# YOUR BENEFITS AT A GLANCE

- Quick and time-saving
- installation
- Significantly
- ← easier handling
- Also suitable for large installations with light management systems
- Flexible and sustainable solution thanks to replaceable T8 LED tubes
- 5 Greater safety

# **PROMISING TALENTS**

# THE DAMP PROOF HOUSING GEN 3 FAMILY

DAMP PROOF HOUSING is a reliably robust damp-proof luminaire housing that can withstand dust and low pressure jets of water, and has a tough IK08 rated impact protection. Its durable stainless steel fasteners and brackets guarantee high quality.

#### MANY STRENGTHS, MULTIPLE APPLICATIONS

The many strengths of the DAMP PROOF HOUSING lends it to a wide range of applications including parking garages, warehouses and production areas. And thanks to new DALI and emergency lighting versions the number of applications is now even greater.

#### **MAIN FEATURES:**

- Available in 3 lengths
- For 1 or 2 T8 LED tubes
- ON/OFF, DALI and emergency lighting versions
- IP65 protection and IK08 shock resistance
- Rounded design and low weight for comfortable handling
- Tool-free cable connection
- Quick opening and closing via stainless steel fasteners

#### **OTHER FEATURES:**

- Ideal for use with LED TUBE T8 EM or LED TUBE T8 CONNECTED
- Excellent safety thanks to integrated fuse
- Through-wiring accessories available for larger installations
- Sustainable thanks to the use of replaceable LED tubes
- 5-year guarantee/3 years for EM versions

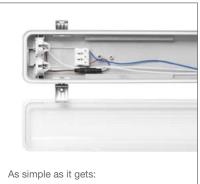

## **NOTHING COULD BE EASIER - TOOL-FREE INSTALLATION**

Compared to the previous generation, the new DAMP PROOF HOUSING GEN 3 can be mounted significantly faster. Tool-free installation is just one of the reasons.

The reduced housing weight makes handling easier. Fewer fasteners and a diffusor fixed to one side, removing the need to be held or put down, help to save valuable time during installation. But the best thing is that the wiring-friendly luminaire terminals allow you to electrically connect the luminaire without any tools. And if necessary, you can throughwire quickly with our special accessory kit.

## tool-free luminaire terminal.

# A STRONG COMBINATION

Both LED TUBE T8 EM and LED TUBE T8 EM CONNECTED from LEDVANCE can be used in the robust DAMP PROOF HOUSING (IP65/IK08).

The LED TUBE CONNECTED SYSTEM allows wirelessly connected light management without extensive wiring and programming.

WHICH LED TUBE T8
TO CHOOSE?
The right LED TUBE is
easy to find in our eCat at

#### **ABOUT LEDVANCE**

With subsidiaries in more than 50 countries and business activities in over 140 countries, LEDVANCE is one of the world's leading companies in the field of general lighting for professional customers and end users. Emerging from OSRAM's general lighting division, LEDVANCE's portfolio includes a wide range of LED luminaires for a variety of applications, intelligent lighting products for smart homes and smart buildings, one of the most comprehensive offerings of advanced LED lamps in the lighting industry, and traditional lamps. Beyond lighting, LEDVANCE offers vertically integrated, renewable energy solutions for the building sector. Together, the lighting division and the renewable energy division form a comprehensive ecosystem for residential, commercial, and industrial buildings.
