

TURN OLD INTO NEW: LINEAR MAGNETIC BATTEN T5 – UPGRADING LUMINAIRES MADE EASY

If an existing luminaire needs to be kept but electric or mechanical interfaces are too old for a retrofit or conversion, then a "luminaire-in-luminaire" **UPGRADE** is the solution

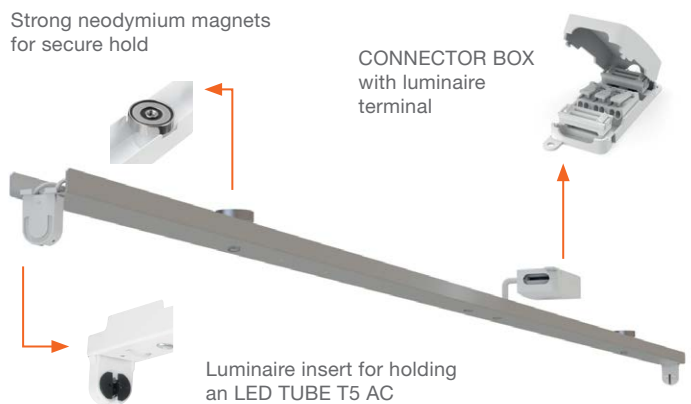

AND HERE'S HOW IT WORKS:

- LINEAR Magnetic Batten T5 conversion kit for existing T5 and T8 metal louvre luminaires
- T8: old lamp holders can remain, T5: old lamp holders must be removed
- Positioning and fastening via adjustable magnets
- Quick, tool-free rewiring thanks to connector box
- Adapted to the use of T5 AC LED tubes
- Available in three different lengths

FLEXIBLE AND EASY UPGRADE

Strong neodymium magnets for secure hold

CONNECTOR BOX with luminaire terminal

Luminaire insert for holding an LED TUBE T5 AC

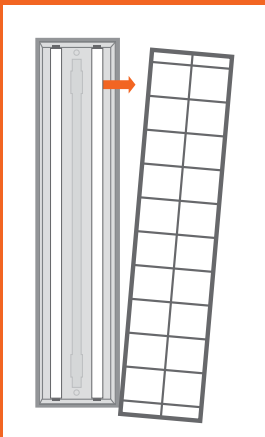

TOOL-FREE CONNECTION

The electrical connection of the LINEAR MAGNETIC BATTEN T5 is also easy and time-saving. Thanks to the key terminal in the CONNECTOR BOX, the luminaire insert can be easily wired without tools.

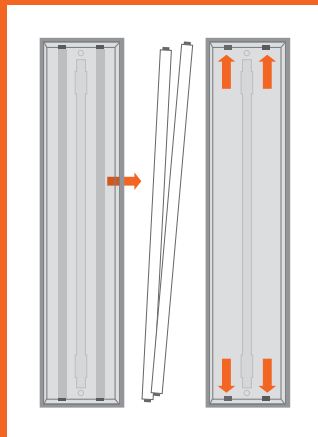

* LED tube not included

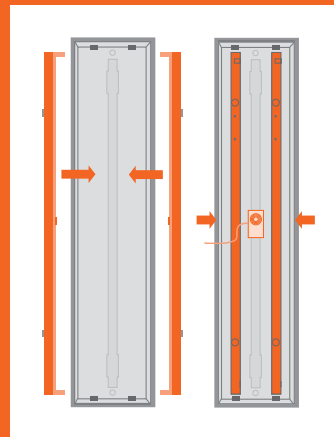

EXTREMELY EASY: INSTALLATION

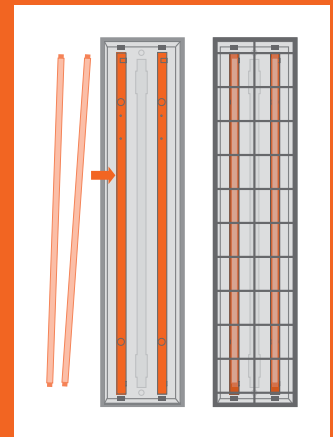

Remove louvre from the luminaire

Remove old T8 fluorescent tube and disconnect power on the luminaire terminal

Insert LINEAR MAGNETIC BATTEN T5 with the help of the magnetic attachment and connect to power supply using the tool-free CONNECTOR BOX

Insert new LED TUBE T5 AC and louvre. Done!

LINEAR MAGNETIC BATTEN T5

Luminaire-insert for upgrading existing metallic ceiling luminaires (T8 and T5 fluorescent) to energy-saving LED technology

PRODUCT FEATURES

- Available in 4 lengths 568, 868, 1168, 1468 mm
- Luminaire-insert for accommodating a LED TUBE T5 AC 230 V
- Suitable for LED TUBE T5 AC, HE or HO, 830/840/865
- Strong Neodym-Magnets
- Connector Box 3-pole included

PRODUCT BENEFITS

- Upgrade without complete replacement of existing luminaires
- The old luminaires may remain installed on the ceiling during the upgrade process
- Control gear and wiring may remain in the old luminaire
- The easy replacement of the LED TUBE T5 AC allows you to participate in the progress of LED-technology over time
- Quick and easy upgrade solution

AREAS OF APPLICATION

- Offices and public buildings
- Supermarkets and department stores
- Industry
- Hallways, foyers, waiting areas
- All applications in which a metal housing for magnet attachment is available
